Grant Claim Management

We assist organisations in accessing research and development grant funding across a range of UK and EU schemes and industry sectors.

The process of obtaining funding is competitive and can be difficult. TBAT can support you throughout all stages of your funding journey, from project inception through to managing the claims process during your successful project. Drawing on our extensive experience securing grant funding, from small single entity projects up to £40 million collaborative bids, we can support you by identifying the most suitable source of funding. Working closely with you, our quality-assured end-to-end process also captures the compliance and submission stages of the application process.

Our team of experienced bid writers have a proven track record and a **76% success rate across a vast range of UK and EU Funding schemes.**

How we can help

Workshops

Consultant-led workshops to scope projects, identify knowledge gaps and help identify a funding strategy for your business.

Bid Writing

Full end-to-end application writing support from our team, supporting both single company and consortia applications.

Application Review

If you've already written your application, our expert Consultants can read and review, providing some pointers on where you could score higher!

Feedback & Resubmission Reviews

Our Consultants can also assist you to address assessor feedback and resubmit previously unsuccessful applications.

Grant Claim Management

Successful projects require regular meetings and updates with Monitoring Officers, we can assist with the management of your Grant Claims.

Why use a Bid Writer?

Grant Funding is provided through a competitive process, in which you apply to have your project assessed before being awarded any money from the funding body, if successful. Application forms can be long and complex, needing a high level of detail provided within tight word limits. It's crucial to get the right balance of providing key information and addressing what the assessors want to see, and that's exactly what our team of expert Consultants do!

Testimonial

"TBAT applied their expertise in grant writing and understanding of the overall process to our Biomedical Catalyst submission. The process ran smoothly, with TBAT leading the crafting of the application and always on hand to help refine the project and scope of the application. The successful collaboration culminated in a high scoring grant and a successful application, which will prove invaluable."
