Grant Funding Consultant / Bid Writer

£35,000 - £40,000/yr (dependent on experience and knowledge)

Job Type: Full-time, permanent

About the role

Established in 2002, TBAT Innovation is a vibrant niche consultancy with an overarching aim to stimulate and support research and development focused businesses to innovate. Our main service offerings centre around providing support to; access grant funding and secure R&D tax credits.

We are currently 30 people, with a head office in the East Midlands, a developing office in Oxford, but covering the UK, working across a wide range of sectors including energy, transport, advanced materials and health. Our business has grown by an average of 24% year-on-year over the past five years and is forecasted to accelerate further.

TBAT is looking for someone to join the expansion of its Grant Funding team. You will be joining a fast-developing company and as such, you will have the opportunity to play a key part in the continued growth of the business.

You will lead and support high-quality end-to-end proposal development and bid process activities, with a goal to deliver on-time and compliant submissions. This will include structuring, developing, researching and writing grant funding bids into (for example) a number of Innovate UK, BEIS, SBRI, DfT and Horizon Europe schemes.

The role is client-facing and relies on your ability to deal with senior technical people on a one-to-one basis, conducting structured interviews and the writing of high-quality technical reports.

This is a great opportunity if you're looking for a chance to take a stimulating role working with clients and in collaboration with a team-based and consultancy environment.

Core Responsibilities

- Lead and support high-quality end-to-end proposal development and bid process activities, with a goal to deliver on-time and compliant bid submissions.
- Understanding and definition of R&D projects and expenditure through participation in technical discussions with clients
- Assessment of projects in line with grant guidelines
- Writing compelling technical and commercial content to bring out the key factors of client projects to inform the grant bid
- Developing own knowledge and skills in grant funding, to keep fully up to date and continue to improve
- Interaction with clients' technical and engineering staff in order to develop a comprehensive understanding of the project and identify how aspects of projects meet the grant guidelines
